Professional Summary

Computer Science Engineer pursuing a B.Tech with a strong foundation in programming, problem-solving, and software development. Hands-on experience building web applications, backend systems, and data-driven projects, with strong communication and adaptability.

Education

Walchand Institute of Technology, Solapur, India

2023 – 2027

B.Tech – Computer Science and Engineering

CGPA: 8.8

Experience

Data Analytics Intern – ApexPlanet Software Pvt. Ltd.

Mar 2026 – May 2026

- Performed data cleaning, preprocessing, missing value handling, and feature engineering using Python and Pandas.
- Conducted exploratory data analysis (EDA) using Python and SQL to identify patterns, trends, and actionable insights.
- Created data visualizations and interactive dashboards in Power BI to communicate analytical findings and support data-driven decisions.

Projects

College Event Management System

Java, Spring Boot, MySQL

- Developed a web-based application to manage college events, participants, and event-related information.
- Built backend services using Spring Boot and implemented CRUD functionality through RESTful APIs.
- Integrated MySQL for persistent data storage, data retrieval, and database management.

Student Dashboard

HTML, CSS, JavaScript

- Designed and developed an interactive dashboard to organize and present student-related academic information.
- Implemented client-side functionality using JavaScript and structured the interface with HTML and CSS.
- Built a responsive user interface focused on usability, organized information, and consistent presentation.

Data Analysis Project

Python, SQL, Excel, Power BI

- Analyzed datasets using Python, SQL, Excel, and Power BI to identify trends, patterns, and key business insights.
- Performed data cleaning, preprocessing, transformation, and exploratory data analysis (EDA) to prepare datasets for analysis.
- Created data visualizations and Power BI dashboards to present findings and support data-driven decision making.

Skills

Programming	Python, Java, JavaScript, SQL
Web Development	HTML, CSS, JavaScript, Node.js, Express.js, Spring Boot, EJS, Bootstrap
Databases	MySQL, MongoDB, PostgreSQL
Core Concepts	Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS, REST APIs, CRUD, Problem Solving
Tools	Git, GitHub, VS Code, Postman, Jupyter Notebook, Power BI

Certifications

- NPTEL – Edge Computing – Elite, Top 5%, 2026**
- Infosys Springboard – Python Foundation, 2023**
- Deloitte – Data Analytics Job Simulation – Forage, 2026**
